FUNCTIONS OF PRIMARY MARKET

* Function of Primary Market :-

The primary market is a type of capital market that deals with the new issue of stocks and securities. The main function of a primary market include Origination, underwriting and distributing.

i) Origination ⇒

Origination is to identify, Assess and process new securities for the issue.

ii) Underwriting ⇒

Underwriting is an essential aspect while offering a new issue. An underwriter's role in a primary market place is includes purchasing unsold shares if it cannot manage to sell the required number of share to the public.

iii) Distribution ⇒

It invites the public at large to buy a new issue and provides detailed information on the company, issue and involved underwriters.

★ INTRODUCTION :-

The Primary market is the part of the Capital Market that deal with the issuance and sale of securities to purchasers directly by the issuer, with the issuer being paid the proceeds.

★ MEANING :-

- * A primary market means the market for new issues of securities, as distinguished from the secondary market, where previously issued securities are bought and sold.
- * "A market is primary if the proceeds of sales go to the issuer of the securities sold."
- * Buyers buy securities that were not previously traded.

★ Examples :-

→ The sales of new government securities by the U.S. Treasury to finance a government deficit.

→ \$100M bond issue by Procter and Gamble to finance the construction of a new soap production plant.

★ FEATURES OF PRIMARY MARKET :-

* There are 4 main features or features of Primary Market.

q.i) It is related with new Issues :-

The first important features of the primary market is that it is related with the new issues.

q.ii) It has NO particular place :-

Primary market is not the name of Any particular place but the Activity of bringing in new issues is called the primary market.

q.iii) It has various Methods of floating capital :-

Following are the methods of raising capital in the Primary Market:

① Public Issue \Rightarrow Under this method, the company issues a prospectus and invites the general public to purchase shares or debentures.

② Offer for Sale \Rightarrow Firstly the new securities are offered to an intermediary (generally firms of stock brokers) at a fixed price. They further resell the same to the general public.

③ Private Placement \Rightarrow The company sells securities to the institutional investors or brokers instead of selling them to the general public.

Q. 2.) Types of Company.

Ans: A) Chartered Companies: These companies come into the existence by the royal charter issued by the head. E.g. East India Company.

B) Statutory companies: These companies are formed under the special statute of the parliament or state legislature. These companies are formed usually with the main objective of society welfare & need & not for profit. E.g. RBI, SBI, LIC, UIT. Such companies do not have any MOA or AOA.

C) Registered Companies: Here the companies are registered under companies Act 2013. ~~But~~ any other provisions acts. The companies can be further divided on the basis of: (i) constitution (ii) liability (iii) control etc.

i) On the basis of constitution:

a) Public Company: It is a company which is not a private company, whose minimum members are seven & maximum is unlimited. The minimum paid-up capital of Public company of ₹ 5,00,000 has been deleted as per the Companies amendment act 2015. Hence, no minimum paid up capital is required. A public company may be listed or a non-listed company.

b) Private Company: A private company is a company where the minimum members are 2 & maximum are 200 members. The minimum paid-up capital of ₹ 1,00,000 has been deleted as per the companies amendment act 2015. Thus no minimum paid up capital is required. Private companies have restriction on transfer of shares. Private companies prohibits the invitation to the public for subscription of securities.

c) One person company: A OPC is a company which has only one person in ~~the~~ number & one person himself as the member. OPC requires a person who is a resident & citizen. In India, a natural person shall not be

H.W. 6. Aditi invested ₹ 19890 to purchase shares of a company with F.V. ₹ 10 at market price ₹ 130. She recd dividend of 20% as well. Later she sold the shares at market price ₹ 180 brokerage charged was 2%. Find her net profit.

H.W. 10. Calculate the gain when 100 shares of F.V ₹ 2, bought at ₹ 250 per share are sold at the rate of ₹ 275 / share, after receiving the dividend of 230% from the company charged was 0.2%.

Ans: Given :- No. of share = 100, M.V = ₹ 250, F.V = 2
M.V of selling = ₹ 275, Dividend = 230%
Brokerage = 0.2 %

Find :- Gain = ?

$$\text{Brokerage / share} = \text{M.V} \times \text{Brokerage \%} = 250 \times 0.2\% = 0.5$$

$$\therefore \text{Amount to purchase} = \left(\frac{\text{No. of share} \times \text{M.V}}{\text{Per share}} \right) + \left(\frac{\text{No. of share} \times \text{Brokerage}}{\text{Per share}} \right)$$

$$= (100 \times 250) + (100 \times 0.5)$$

$$= ₹ 25,050.$$

$$\text{Dividend on entire deal} = ₹ 21$$

$$\text{Amount to receiving} = (100 \times 275) - (100 \times 0.55) \\ = 27,445.$$

$$\therefore \text{Amount of received} = ₹ 27466$$

\therefore Amount of received > Amount of spent \Rightarrow
He is the gain

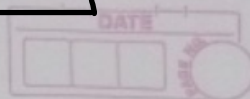

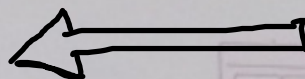

$$\therefore \text{Gain} = ₹ 2416$$

$$\text{Dividend} = \text{F.V} \times \text{Dividend \%} \times \text{No. of shares.} \\ = 2 \times 230\% \times 100 = 460$$

$$\text{Total Amount received} = 27445 + 460 = 27905.$$

Q1] Find the arithmetic mean for the following data.

x	$F(x)$	$fixi$
5	15	75
8	10	80
12	25	300
10	30	300
6	10	60
5	10	150

$$N=100 \quad \sum fixi = 965$$

$$\bar{x} = \frac{\sum fixi}{N}$$

$$\bar{x} = \frac{965}{100}$$

$$\therefore \bar{x} = 9.65$$

Q2] Calculate the arithmetic mean for the following data.

C.I	f	Mid Value of C.I [class interval] x_i	$fixi$
10-20	10	15	150
20-30	15	25	375
30-40	05	35	175
40-50	20	45	900
50-60	25	55	1375
	$N=75$		$\sum fixi = 2975$

Q2] Find the arithmetic mean of the following data

$$\bar{x} = \frac{\sum fx}{N} = \frac{2975}{75}$$

$$\therefore \bar{x} = 39.67$$

10	20	30	40	50	60	70
100	150	200	250	300	350	400

Find the Spearman's correlation coefficient for
 2 = m₁ semit 2 repeated si on 4
 1 = m₂ semit 2 repeated si on 1

$$\rho = 1 - 6 \left\{ \frac{\sum d_i^2 + \frac{1}{12} [m_1(m_1^2 - 1) + m_2(m_2^2 - 1)]}{n(n^2 - 1)} \right\}$$

$$= 1 - 6 \left\{ \frac{52 + \frac{1}{12} [2(2^2 - 1) + 2(2^2 - 1)]}{6(6^2 - 1)} \right\}$$

$$= 1 - 6 \left\{ \frac{52 + \frac{1}{12} (2 \times 3 + 2 \times 3)}{6 \times 35} \right\}$$

$$= 1 - 6 \left\{ \frac{52 + \frac{1}{12} (6 + 6)}{210} \right\}$$

$$= 1 - 6 \left\{ \frac{52 + \frac{1}{12} \times 12}{210} \right\}$$

$$= 1 - 6 \left\{ \frac{52 + 1}{210} \right\}$$

$$= 1 - 6 (0.25238095238)$$

$$= 1 - 1.51428571428$$

$$\therefore \rho = -0.5142$$

Ans: $\rho_1 = R_1 - R_2$
 $\rho_2 = R_2 - R_1$
 $\rho_3 = R_3 - R_4$
 $\rho_4 = R_4 - R_3$
 $\rho_5 = R_5 - R_6$
 $\rho_6 = R_6 - R_5$

"Report on "Newspaper Ad making Competition"

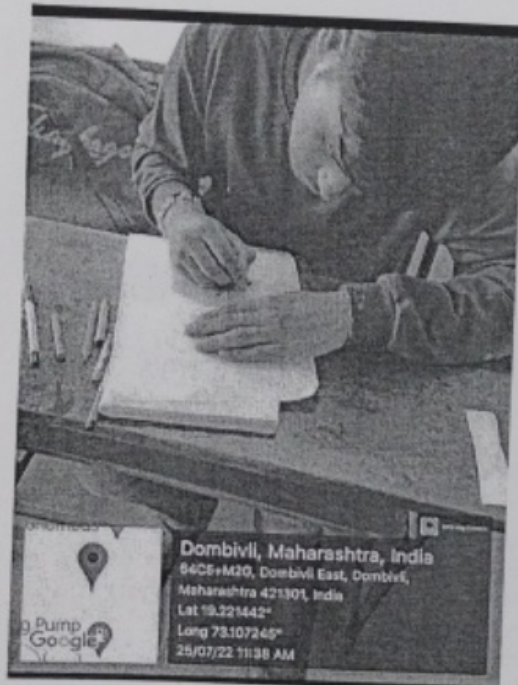

Madam,

On behalf of the Internal Quality Assurance Cell and Commerce Association ,we are enclosing a brief report of **"Newspaper Ad making Competition"** which was conducted on Tuesday, 25 July,2022 from 11:00 am to 12:00 pm.

The objective of this competition was to make the students innovative and to generate out of the box thinking abilities among the students. Students were asked to choose the topics by picking chits from the bowl. A range of varied product options were mentioned in the chits.7 students from our College participated in this competition. The students were asked to design their own brand name, logo and tagline in the Competition.

The Competition was concluded by judging the best Newspaper Ad based on creativity, attractiveness. The best 2 among all the participants were selected as winners. Our Principal appreciated the students for their efforts and praised them for their imaginative thinking.

Some photos of competitions are:
